

# Service Technician Technical Installations

Are you an experienced service technician who maintains and troubleshoots technical installations? Do you enjoy working in a dynamic environment where you can apply your technical knowledge broadly? And do you want to contribute to a healthier world? Then Koppert is looking for you!

## Service Technician Technical Installations

32-40 hours per week | Berkel en Rodenrijs (near Rotterdam)

### What will you do as a Service Technician Technical Installations?

As a service technician, you are responsible for preventive maintenance, troubleshooting, and improving various technical installations within our production and office locations. You will work with a wide range of systems, including:

- Climate and air handling installations
- Electrical installations
- Utilities such as steam, heating, and compressed air systems

Together with your team, you ensure the optimal operation of these installations and contribute to continuous improvements in our technical processes.

### A typical workday

You start your day performing scheduled maintenance tasks according to a weekly planning. Next, you solve malfunctions that could disrupt production. You work closely with fellow technicians and other technical specialists to ensure the reliability of our systems.

### About the team and department

You will join the Maintenance & Repairs (M&R) department, part of the Technical Department. The team consists of approximately 15 technicians responsible for managing all technical installations at Koppert. The Technical Department has over 70 employees dedicated daily to innovative and reliable technical solutions.

### Who are you?

- You have a completed MBO (or equivalent) education in Climate Technology, Electrical Engineering, Mechanical Engineering, or a related field.
- You are available for at least 32 hours per week and willing to participate in on-call shifts.
- You prioritize safety for yourself and your colleagues.
- You are solution-oriented, flexible, and service-minded.
- You are eager to learn and develop your technical skills further.

### What do we offer you?

- A competitive salary up to €4,607.57 depending on your experience and knowledge.
- A signing bonus of €1,500 gross.
- A continuous labor market allowance of 5%, increasing to 10% when participating in on-call duties.
- Travel allowance of €0.23 per km up to 30 km.
- Training opportunities through the Koppert Academy.
- 25 vacation days plus 3 additional days off.
- A dynamic, international work environment.
- A sports allowance to support a healthy and active lifestyle.

### Why work at Koppert?

At Koppert, we are committed to improving the health of people and the planet by developing sustainable, natural solutions for agriculture and cultivation. As a service technician, you contribute to the reliability of the technical installations that support this mission. We are a family business with a strong culture of collaboration, respect, and innovation.
